

Minn., tells how woman's monthly suffering may be quickly and permanently relieved by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM: - I have never before given my endorse-"Dear Mrs. Pinkham:—I have never before given my endorsement for any medicine, but Lydia E. Pinkham's Vegetable Compound has added so much to my life and happiness that I feel like making an exception in this case. For two years every month I would have two days of severe pain and could find no relief, but one day when visiting a friend I run across Lydia E. Pinkham's Vegetable Compound,—she had used it with the best results and advised me to try it. I found that it worked wenders with me; I now experience no pain and only had to use a few bottles to bring about this wonderful change. I use it occasionally now when I am exceptionally tired or worn out."—Miss Alice M. Smrin, 804 Third Ave., South Minneapolis, Minn., Chairman Executive Committee Minneapolis Study Club.

Beauty and strength in women vanish early in life because of monthly pain or some menstrual irregularity. Many suffer silently and see their best gifts fade away. Lydia E. Pinkham's Vegetable Compound helps women preserve roundness of form and freshness of face because it makes their entire female organism healthy. It carries women safely through the various natural crises and is the safeguard of woman's health.

The truth about this great medicine is told in the letters from women published in this paper constantly.

Mrs. C. Kleinschrodt, Morrison, Ill., says:-

"DEAR MRS. PINKHAM: - I have suffered ever since I was thirteen years of age with my menses.

They were irregular and very painful. I doctored a great deal but received no benefit.

"A friend advised me to try Lydia E. Pinkham's Vegetable Compound, which I did, and after taking a few bottles of it, I found great relief.

"Menstruation is now regular and without pain. I am enjoying better health than I have for sometime."

How is it possible for us to make it plainer that Lydia E. Pinkham's Vegetable Compound will positively help all sick women?
All women are constituted alike, rich and poor, high and low, — all suffer from the same organic troubles. Surely, no one can wish to remain weak d with life and without hope for the future, when proof iraged with life and without hope for the future, when proof t that Lydia E. Pinkham's Vegetable Compound will fering—all womb and ovarian troubles, and all the ills

### DISSOLUTION.

on & Davidson Company, bay indebted to the late firm will being counts at once. GEO, RICHARDSON,

IN MOTHER GOOSE'S TIME

The roots of these locusts not only will hold the soil, and stop it from washing, but the land where they are washing, but the land where they are grown will gradually improve, and soon will be in condition for grass. In many cases the grass will come in spontaneously, as the locust is one of the few trees that grass will grow well under. Thus the land will be saved and will be made to yield both timber and nasture.

and pasture. Stock should be kept off, however, until the young trees have grown out of reach. Cattle and sheep will soon get sid of a patch of locust sprouts. Indeed, pasturing is about the only practicable way of destroying them. After they get high enough to be controlled. high enough to be out of the reach of cattle they will take care of them-

LOCUSTS RESTORE SOIL.

Tennessee Farmer Claims That Plant-

ing Trees Is Surest Way of

Fattening Land.

In almost any section of the hill coun-

ry one can see old hillsides worn and washed and gullied until they are past

all hope of yielding profitable crops without remedial treatment. Often they are left to become poorer and more

hopeless with each passing year, while

again they will be in a state of more less doubtful reclamation. This proc ess of restoration is in most cases slow

and expensive, requiring a large outlay if time and patience if not of money; and sometimes the question of how to go about it is equally important and dif-

in many instances the surest and theapest way will be found to be the

planting of trees. A Tennessee farmer writing in the Farm Stock Journal says: The black or yellow locust is the tree best adapted to this work, as

it grows rapidly and on poor soil, and is valuable when grown. By setting out

irees two or three years old on such

lands and keeping them trimmed up they will in 15 or 29 years—frequently

in a much shorter time—be large enough for posts, and the land they occupy will

and if put out with any care at all will grow almost anywhere. If enough trees are not available to set out all over

such a place a few may be scattered about at considerable distances, and then when they have established them-

selves cut down. This will cause the roots to throw up a great number of

and free from branches

There Was One Defect. "I am a self-made man," said the proud individual.

"Well, you are all right except as to your head," commented the other part of the conversation. "How's that?" "The part you talk with is out of pro-

portion to the part you think with." San Francisco Wasp. Too True to Nature.

TE ARE DETERMINED to double last season's business. We propose to sell good clothing cheaper than ever offered in Lynchburg. Now, you will naturally ask, how can you do this and give so many valuable prizes? Simply this—if you will help us double our business—with same rent, same taxes, and almost same expense all through, we can afford to divide with you. We think this is a liberal, common sense proposition. We don't believe in excitement, something for nothing; we talk common sense to sensible people. Our plan (to be brief) is this. From how April 1st, 1904, we will give a numbered Coupon with each \$1.00 purchase at our store; the duplicate of the number will be placed in a box, locked securely, and on April 1st a committee of reliable farmers, one from each county, will come to Lynchburg at our expense to do the drawing. We don't believe in both and on April 1st a committee of reliable farmers, one from each county, will come to Lynchburg at our expense to do the drawing. We don't believe in both and on April 1st a committee of reliable farmers, one from each county, will come to Lynchburg at our expense to do the drawing. We don't believe in both and on April 1st a committee of reliable farmers, one from each county, will come to Lynchburg at our expense to do the drawing. don't believe in excitement, something for nothing; we talk common sense to sensible people. Our plan (to be brief) is this: From now until way doing things; our offer is a giant, never before equalled by any firm. Something for each member of the family and for ALL THE FAMILIES will have a chance at one or all of the following valuable prizes, purchased from the most reliable firms in this city.
